

## George A. Kennedy & Associates, Ltd. ■ Projects

### Historic Preservation

#### **Windermere House**

1642 East 56th Street, Chicago, Illinois

Client: Metroplex and MAC Properties

Building details: 13 Stories

Designed in 1923 by Rapp & Rapp Architects, this 200-unit building was fully inspected and had a facade master plan created by our facade architects/engineers.

The abundant terra cotta detailing is scheduled for restoration during a multi-phase program that will bring the splendor back to this historic masterpiece of masonry.

As part of our services, we will make sure the facility complies with all City of Chicago facade inspection reports and submit filings to the appropriate department.
